2019 Clinton City Municipal Election Candidates

Name	Address	Phone	Email
Anna L. Stanton	3363 W 1800 N	801-721-8214	anna.stanton10@gmail.com
TJ Mitchell	1523 N 1615 W	801-776-2301	bigtrealestate@gmail.com
Karen Kagie	1897 N 2645 W	801-510-6476	karenkagie@gmail.com
Barbara Jean Patterson	2562 W 1725 N	801-698-0779	Patterson_885@msn.com
Anthony "Tony" O. Thompson	2806 W 800 N	801-773-2313	Tonydtiger2@att.net

The Master Ballot Position is determined by the Lt. Governor's office in accordance with Utah State Code 20A-6-305.

The 2019 Clinton City Municipal Election will be conducted as Vote by Mail in coordination with the Davis County Clerk/Auditor. For information on Vote by Mail & Voter Registration ([click here](#)). For those who wish to vote early, ballots can be dropped off in a secure drop box in the Clinton Utilities Dept prior to the election Mon thru Fri 8 a.m. to 5 p.m. For those who wish to vote in person, a polling location will be available at Clinton City Recreation on Nov 5, 2019 from 7 am to 8pm. There will be **NO** Primary Election on Aug 13, 2019.

PARKS BOARD NEWS

The disc golf course at the Civic Center area is in operation. Markings are in place to direct players through the course. Check with Recreation for information on lessons and playing this new and exciting sport.

There are still parks to be adopted. Please look over the parks in your neighborhood to see if you would like to help with clean-up, reporting damages or vandalism, and general upkeep, in between the usual maintenance by the city. Contact the Parks Board at parksboard@clintoncity.com.

Visit the Parks Advisory Board Booth at Heritage Days on Saturday July 13.

FIREWORKS SAFETY

As fireworks season is here, the Clinton City Fire Department would like to remind the citizens of Clinton to responsibly discharge their fireworks and novelties while enjoying this holiday season. The firework discharge dates are the same as last year. You can legally discharge fireworks from July 2 to July 5 and July 22 to July 25 between the hours of 11am and 11pm. On July 4th and July 24th it is extended to midnight. Sale of fireworks will begin on June 24 and go through July 25.

There will be no firework restrictions within the city boundaries this year. Please use common sense and manufacturers recommendations when discharging fireworks.

We encourage everyone as they celebrate the independence of our country and the arrival of the pioneers to our mountain valleys that they do it with safety being their primary focus. According to the U.S. Consumer Product Safety Commission 280 people on average go to the emergency room with fireworks-related injuries daily around the July 4th holiday.

ARTS BOARD NEWS

Clinton Children's Choir – Children ages 5-14 can sign up to sing with this choir that will be preparing Christmas music to sing at the annual Clinton Community Sing-a-long and the Dec Club 55 lunch. The practices for this group will be on Tuesdays at 4 PM starting Sept 10 thru the performances in December. Cost to participate is \$25. Registration begins Aug 1 thru Sept 10.

See you at Heritage Days for all our fun events including the chalk art festival, art/photo/quilt contest, painting in the round, and the "The Voice" competition. We are looking forward to a fun filled community event.

NOTICE OF PASS THROUGH UTILITY RATE INCREASES

Beginning with the July utility bill that will arrive in homes in August, the City will be implementing the following fee increases:

- \$2 per can for Wasatch Integrated Waste Management
- \$.50 per household for Weber Basin Water Conservancy Dist.
- \$.10 per household for Davis County Animal Control Services

Please note these increases are strictly pass through fees the City is being charged by these service providers.

Davis County is offering a free Caregiver Academy this fall which consists of six workshops to assist family and community caregivers in developing skills to manage in-home care. The classes will be held at the University of Utah Farmington Clinic. Space is limited and registration is required please call 801-525-5050 option 5.

FOR OUR SENIORS - Davis County offers many programs and services for seniors including educational seminars, activities and volunteer opportunities. For more information on these and other programs available please visit their website at <http://www.co.davis.ut.us/health/senior-services>

CLINTON CITY RECREATION NEWS

1651 W 2300 N – 801-614-0780

~~ Follow Clinton Rec on Facebook & Instagram

Register for programs on-line at www.clintoncity.net
or call 801-614-0780

For more information, or to sign up for our programs, call 801-614-0780 or go to our website www.clintoncity.net under the Recreation Tab.

Hunters Education Course

In conjunction with the Utah Division of Wildlife, Clinton Rec will hold Hunter Ed Courses in Aug & Sep. Classroom instruction will be held at Clinton Rec from 6 – 10 pm and shooting on Aug 8 & Sept. 12 from 5:45 – 7:45 pm (location TBA). Participants must attend both days. See <http://www.clintoncity.net/2362/Hunters-Education> for registration information.

Class Day: 6:00-10:00 PM	Range Day
Aug 5 th	Aug 8 th
Sep 9 th	Sept 12 th

Contact Football Registration

DEADLINE is JULY 5TH!! NO late registrations. Packets are available at Recreation 1651 W 2300 N or online. Only COMPLETE packets will be accepted. Ages 7-15, must weigh at least 40 lbs and not be registered for high school. Cost is \$110.

Flag Football Registration

Co-ed ages 1st-9th grade. Cost is \$50 resident and \$55 non-resident. Registration includes a game jersey and 8 games, the **deadline is August 2nd**.

Fall Soccer Registration

Registration runs through July 27th. Cost is \$50.00 for residents and \$55.00 for non-residents. The season runs August - October. Youth ages 4 (preschool – must start kindergarten fall of 2020) to **9th grade**. Registration information is at www.clintoncity.net or www.activityreg.com

Fall Soccer and Flag Football Officials

If you are interested in becoming an official for youth soccer and flag football, apply at the Recreation Offices by July 13th for training. You can download an application at www.clintoncity.net.

Back to School Movie in the Park--- “SMALL FOOT” August 23rd at Dusk - Come join us for games and activities starting at 6:30 PM.

Fall Adult Slow Pitch Softball

Signups for the fall slow pitch leagues run July 1st – August 2nd. Both co-ed and men’s team on Monday-Thursday nights are available. Cost is \$300 per team with an 8 game guarantee including a single elimination tournament at the end of the regular league play.

Fall Adult Kickball League

Registration for adult co-ed kickball league for ages 16 and older runs July 1 – August 3. Cost is \$200 per team. The league will run on Thursday nights at civic center complex. For more information contact Recreation at 801.614.0780. Register your team at 1651 W 2300 N or online at www.clintoncity.net.

VETERAN’S MEMORIAL REDESIGN

Many of you may have noticed we removed the veteran’s memorial bricks last fall. The bricks have been cleaned and are ready to be re-installed in the new Memorial Wall area in Veteran’s Park near the bowery just north of the old location. The bricks, Veteran’s Rock and flag should be ready for total viewing by the end of July. Thanks for your patience!

RECREATION JOB OPPORTUNITIES

Community Rental Room Site Supervisor

The Recreation Department is currently accepting applications for a Site Supervisor for the Community Rental Room. Applicants must be 21 years of age and be willing to work nights and weekends, including Sundays. Duties include: ensuring the renters are following the rental room rules and regulations, acquiring the rental key from the renters upon completion of the rental, returning the security deposit to the renter and locking the building after the rental.

Youth Sports Site Supervisor

The Recreation Department is currently accepting applications for Youth Sports Site Supervisors. Applicants must be 21 years of age and be willing to work nights and occasional Saturdays. Duties include: putting equipment on the fields/courts, crowd control, watching weather, locking facilities and maintaining a safe environment for youth to play sports

HERITAGE DAYS

Heritage Days is July 10 – 13. The carnival runs July 10 - 13. Discount pre-sale tickets are on sale now for \$25 at Recreation 1651 W 2300 N M-F 8am – 5pm. Registration for activities and events is also going on now!

For information about all the Heritage Days Events see <http://www.clintoncity.net/2226/Heritage-Days>.

2018 Water Quality Report Clinton City

We are pleased to present to you this year's Annual Water Quality Report. This report is designed to inform you about the quality of the water, the services we deliver every day and what it means to you, our customer. Our prime goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water system and protect our water resources. We are committed to ensuring the quality of your water.

Where does my water come from?

The majority of our water is supplied by several reservoirs, the Weber River and creeks along the Wasatch Front. This surface water is treated by and purchased from the Weber Basin Water Conservancy District. Deep well water is used to supplement the surface water resources, if necessary.

Monitoring

Clinton City's drinking water is routinely monitored for components in accordance with Federal and Utah State laws. The following table shows the results of monitoring for the period of January 1st to December 31st, 2018. The following definitions will help you understand the terms and abbreviations.

Non-Detects (ND) - laboratory analysis indicates that the constituent is not present.

Range: Low to high - For water systems that have multiple sources of water, the Utah Division of Drinking Water has

given water systems the option of listing the test results of the constituents in one table, instead of multiple tables. To accomplish this, the lowest and highest values detected in the multiple sources are recorded in the same space in the report table.

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter (ug/l) - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

Picocuries per liter (pCi/L) - picocuries per liter is a measure of the radioactivity in water.

Nephelometric Turbidity Unit (NTU) - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

Maximum Contaminant Level (MCL) - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water.

Maximum Contaminant Level Goal (MCLG) - The "Goal" (MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

WEBER BASIN CENTRAL TEST RESULTS							
Contaminant	Violation Y/N	Range Low to High	Unit Measurement	MC LG	MCL	Average	Likely Source of Contamination
Regulated Microbiological Contaminants							
Turbidity	N	High 0.07	NTU		0.3	0.02	Soil runoff
Regulated Radioactive Contaminants							
Data collected from 2013 to 2017							
Gross Alpha Particles	N	0-2.6	pCi/L	0	15	0.9	Erosion of natural deposits
Combined Radium	N	0.4-0.5	pCi/L	0	5	0.4	Erosion of natural deposits
Regulated Inorganic Contaminants							
Data collected from 2011 through 2017							
Arsenic	N	ND-1.2	Ppb	NA	10	0.6	Erosion of natural deposits, runoff from orchards.
Barium	N	0.9-0.27	ppm	2	2	0.15	Erosion of natural deposits; Discharge of drilling waste
Fluoride	N	0.6-1.7	ppm	4	4	0.65	Fluoridated water in distribution system
Nitrate	N	0.1-1.6	ppm	10	10	0.7	Runoff from fertilizer use; erosion of natural deposits
Selenium	N	0.0006-2.1	Ppb	50	50	0.7	Erosion of natural deposits.
Sodium	N	19.6-47.1	ppm	NA	NA	35.3	Erosion of natural deposits
Sulfate	N	25-42	ppm	NA	1000	32.7	Erosion of natural deposits

Total Chromium	N	ND-0.001	ppm	0.1	0.2	0.0005	Erosion of natural deposits
Total Dissolved Solids	N	315-412	ppm	NA	2000	360	Erosion of natural deposits
Regulated Organic Contaminants Data collected in 2016-2017							
Total Trihalomethanes	N	10.9-27.4	Ppb	NA	80	18.0	By-product of drinking water chlorination.
Haloacetic Acids	N	4-16.2	Ppb	NA	60	10	By-product of drinking water chlorination.

Arsenic, Lead, Nitrate, Radon and Cryptosporidium are regulated more closely. Notice of *any* detection is required.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Clinton City is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

What does this mean?

MCL's are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL for a lifetime to have a one-in-a-million chance of having the described health effect.

Why are there contaminants in the water?

All sources of drinking water are subject to potential contamination by constituents that are naturally occurring or are man made. Those constituents can be microbes, organic or inorganic chemicals, or radioactive materials.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Should special precautions be taken?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines

on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Source Protection

Clinton City has a Drinking Water Source Protection Plan that is available for review to our customers at our public works office. It provides more information on potential sources of contamination and our source protection areas.

Cross Connection

A cross connection is any actual or potential connection between the water you want to drink and other sources of undesirable substances (e.g., used water, irrigation water, industrial fluids, etc.) to enter your drinking water. Through our cross-connection control program we provide oversight and monitor connections to our system to alleviate the possibility of water back-flowing from a consumer, either residential or commercial, into our distribution system. You can do your part by monitoring your own water use and connections within your home or business. For more information regarding cross-connection please visit http://drinkingwater.utah.gov/documents/complianceCross_Control_Basic_Info.pdf.

Violations

No violations occurred in 2018.

Water Conservation

As development and growth continue along the Wasatch front, water will become more and more valuable. Conservation efforts to preserve this valuable resource need to be considered. Some water saving ideas can be found at www.weberbasin.com or www.slowtheflow.org, and also www.conservewater.utah.gov.

We want our valued customers to be informed about their water utility. If you have any questions about this report or concerns about your water utility, please contact us at 801-614-0870, or attend our city council meetings. Meetings are held on the second and fourth Tuesday of every month at 7:00 p.m. at the main city building located at 2267 N 1500 W. The city's website is also available at www.clintoncity.net.

We at Clinton City work around the clock to provide top quality water to every tap. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.
