DECEMBER 2014

ROAD CONSTRUCTION 3000 WEST 2300 NORTH

The City will be starting the 3000 W / 4300 W - 1400 N to 6000 S street construction project with construction of a box culvert to replace the bridge on 2300 N that crosses the Layton Canal just west of 3000 West. Additionally this phase will replace the siphon, located at approximately 2450 North 3000 West and the northwest end of Pond Park, with a box culvert. This construction will completely close off 2300 North just west of 3000 West and will severely restrict north south traffic across 2300 North at 3000 West during portions of this construction.

Electronic notification signs of the construction will be placed in the area prior to closures and the closure of 2300 North at the canal is expected to last at least three weeks with other periods of blockage and slow down. This phase of the project will also be installing an upsized secondary water main from 2300 North to 2415 North along 3000 West and then both secondary and culinary water mains will be extended north along 3000 West north of 2415 North. The construction of this project must be done during the fall and winter when irrigation water is out of the Layton Canal. Once construction begins please avoid the area when possible, observe all flaggers and traffic caution signs, and instruct your children to stay out of construction areas.

MAJOR ROAD CONSTRUCTION PROJECT - 3000 W / 4300 W - 1400 N TO 6000 S STREET CONSTRUCTION PROJECT

Clinton City, in cooperation with Hooper City have developed a street project that will make improvements from 1400 North in Clinton to 6000 South in Hooper/Roy along 3000 / 4300 West to install curb, gutter, and storm drain in areas where not installed, totally reconstruct the existing asphalt, make significant improvements to the intersection at 2300 North 3000 West, and construct complete street from 2415 North to 6000 South. The project will be accomplished in multiple phases and will start this fall/winter and be ongoing into next fall. The City will keep emergency services, garbage pick-up, post office, and Davis School District bus service has been informed of the project. We know that this will be an inconvenience.

MAJOR ROAD CONSTRUCTION PROJECT - 3000 WEST - 300 N TO 1400 N AND 700 S TO BLUFF ROAD STREET

West Point City with cooperation from Clinton City will be managing a street project to make improvements from 300 North to 1400 North along 3000 West. West Point isn't quite as far along with design of their project as Clinton; however they expect to be doing construction during the "construction season" 2015. Syracuse City will also be accomplishing a project on 3000 West during the "construction season" 2015. The Syracuse project will extend from approximately 700 South to Bluff Road.

The annual lighting of luminaries at the Clinton City Cemetery will be held on December 18th at 6:00 p.m. The lighting of luminaries gives family and friends an opportunity to remember loved ones during the Christmas season. Everyone is welcome to come and enjoy the luminaries. Any questions please call the Cemetery office Monday - Friday 7:00 a.m. to 3:00 p.m. (801-614-0870).

Clinton City will be closed for Christmas Dec. 25 & 26.

Business licenses for the 2014 business year expire on December 31, 2014. Renewal applications were mailed out in November. Please contact the Community Development Department at (801) 614-0740 if you have questions. Thank you.

Holiday Fire Safety

Be safe when decorating for the holidays. Follow simple fire safety tips to keep electric lights, candles, and Christmas trees from creating a tragedy. Learn how to prevent a fire and what to do in case a fire starts in your home. Make sure all exits are accessible and not blocked by décor.

Selecting a Tree for the Holidays

Needles on fresh trees should be green and hard to pull back from the branches; the needles should not break if the tree is freshly cut. The trunk should be sticky to the touch. Old trees can be identified by bouncing the tree trunk on the ground. If a lot of needles fall off, the tree has probably dried out, and is a potential fire hazard.

Caring for Your Tree

Do not place your tree close to a heat source, including a fireplace or heat vent. The heat will dry out the tree, causing it to be more easily ignited by heat, flame or sparks. Keep cigarette ashes away from the tree. Do not put your live tree up too early or leave it up for longer than two weeks. Keep the tree stand filled with water at all times.

Disposing of Your Tree

Never put tree branches or needles in a fireplace or wood-burning stove. When the tree becomes dry, discard it promptly.

Robinsons Waste Mgmt will begin pick up of natural Christmas trees on Jan 5th, trees must be curbside by 7 AM

Have a Happy and Safe Holiday Season!
